

BLLB WORK SESSION 2/7/22

KEY OUTCOMES

1. We need to move forward posthaste with our attorney to obtain an updated “activity/critical path” chart (what we have to do and when does it have to be done). We need to know the legal requirements a Lake Board must adhere to as we move forward in 2022 and beyond.
2. We discussed we have three primary areas to complete of an urgent nature....Lake Management Plan development for 2022, and beyond, Treatment Plan and a Lake Testing Plan.
3. Brenda Moore volunteered to take the information we have on hand and draft a proposed Plan.
4. There is a need to speak to other entities...GVSU, PLM, and Progressive A.E. to seek out other professional guidance on the subject of a Lake Management Plan. Darrell V.F. will be in contact with these companies. Also, Paul Pek would contact EGLE to seek their input regarding other potential partners.
