UNFINISHED BUSINESS

Insurance covered

Phragmites Treatment /PLM.

Boat Wash/Signage/2022 Treatment. BLLB will work with Conservation District to help get grant \$ for boat washing signs and a possible boat wash to help prevent the introduction of additional invasive species into Bear Lake.

The BLLB has been awarded GRANT monies via the Muskegon Conservation District, for the 2023 treatment of Phragmites. Each resident will be contacted directly via U.S. Mail, by the Muskegon Conservation District requesting their permission to treat on their property and lake frontage. Each resident will have to sign and return the Agreement form by July 1, 2023, to allow treatment in August and September, 2023. Hopefully, we can obtain 100% participation for the treatment to be most effective and obtain best overall results.

NEW BUSINESS

Al Steinman's "Wetland Restoration"
