

September 27, 2022

Mr. Van Fossan  
Bear Lake Lake Board  
Muskegon, MI 49445

The Muskegon Conservation District would treat the invasive species Phragmites at the points that have been pre-determined by PLM around Bear Lake in North Muskegon. MCD will contact landowners on behalf of the BLLB and gather appropriate landowner permissions. Areas will only be treated if landowner permissions have been granted. Below is a quote of the cost to complete the work.

Labor	\$2,485.00
Mileage	\$ 41.25
Materials	\$1,054.02
Total	\$3,580.30

Please let me know if you have any questions. If you would like to proceed, please return a copy of this document with your signature.

*Date*

*By signing I acknowledge and approve the proposed work and give permission for Muskegon Conservation District to perform the described work on my property. I understand that 100% eradication is not guaranteed and that environmental factors may affect treatment. I also understand that due to the size and density of the invasive species, multiple years of treatment may be necessary to eradicate the species from my property. Payment due upon completion of work.*

Sincerely,

Chelsey Wabsis  
Project Coordinator  
Muskegon Conservation District
