Hi Paul,

Yes we will be addressing what people call the boat ramp. Not until this Fall if the Board and the MDNR approve our plan.

Subject: Horton Park Boat Launch

CAUTION: This email originated from outside the Township of Laketon. Maintain caution when opening external links/attachments

Hi Kim,

The BLLB has had several residents complain about the condition of the Horton Park boat launch. I experienced this first hand. It's actually too dangerous to use the ramp, so people are driving on either side of it. I thought I remember the township getting some funding to improve this, but I also remember there were some complications with some sort of buried line that runs near it.

Do you have any updates on if the township will be making any improvements, and any timing. The park is looking great, and that launch is the only thing I see that still needs to be addressed.

Thanks!

Paul
